re: USA v. Dexter Washington, 23 Cr. 31 (LGS)

**LORNA G. SCHOFIELD**  
UNITED STATES DISTRICT JUDGE

Dear Judge Schofield;

On June 7, 2023, Washington was released from custody on a \$500,000 PRB cosigned by 4 suretors; travel restricted to the SDNY/EDNY; surrender of travel documents, Pretrial supervision, Home incarceration, location monitoring, and the ability to leave his residence for medical appointments, attorney meetings and court appearances.

I am writing to request Washington's bail terms be modified to substitute a curfew imposed by Pretrial Services, and enforced with continued electronic monitoring, replace home confinement. It turns out the length and frequency of Washington's medical appointments, plus his now need for physiotherapy, and physical activity at a fitness center as prescribed by Dr. Neuman [attached] make home confinement problematic.

Pretrial Services by Officer Marlon Ovalles, and the Government by AUSA Patrick Moroney consent to this modification in bail terms.

Thank you very much.

Respectfully,

B. Alan Seidler

RE: Dexter Washington  
DoB: [REDACTED]

To whom it may concern,

Please be advised that the above named patient suffers from multiple medical conditions including hypertension, prostate cancer, cardiovascular disease. He also suffers from herniated cervical and lumbar discopathy to both shoulders and elbow.

We have recommended a program of rehabilitative physiotherapy, as well as analgesics and muscle relaxants. I have also recommended a gym membership in order to further help him in his recovery phase.

If you have any questions, please feel free to contact us at the above number.

Thank you,

Larry Neuman, M.D.
